

ARIZONA STATE SENATE
Fifty-Second Legislature, Second Regular Session

REVISED
FACT SHEET FOR H.B. 2074

public safety employees; omnibus

Purpose

Expands eligibility for the Firefighter, Peace Officer and Corrections Officer Cancer Insurance Policy Program and grants qualified immunity to public entities and employees for any liability resulting from an injury caused by a peace officer providing emergency care.

Background

The Firefighter, Peace Officer and Corrections Officer Cancer Insurance Policy Program provides health benefits to help cover expenses incurred in the treatment of cancer. Firefighters, peace officers, detention and corrections officers who are employed by or are retired from a participating employer are eligible for benefits. The program is administered by the Board of Trustees (Board) of the Public Safety Personnel Retirement System (PSPRS) and pursuant to statute may be insured through a third party or self-insured. Employers of firefighters and peace officers are required to participate and pay into the program on behalf of their employees while employers of corrections and detention officers are not required to participate or contribute to the program (A.R.S. Title 38, Chapter 4, Article 3).

There is no anticipated fiscal impact to the state General Fund associated with this legislation.
